Name: roberts

Address: Loudoun house

sonning

Comment Type: Object

Comment: The proposed two storey side extension will overlook our property resulting in lack of privacy as the existing conservatory being demolished is one storey and the proposed plans are for 2 stories and will overlook our property and garden which is currently totally private and not overlooked .

Consideration should also be given to highway safety as the property is close to a junction with the A4 and traffic is often queued and congested alongside the property at peak times -- there are 2 children nurseries , a school and the reading hockey club in sonning lane . Any construction or building will add to the congestion and impact highway and pedestrian safety .
