Dear Mr Sanders

The Swan Public House, Eversley Road, Arborfield, Reading

Further to our meeting on site, dated 25 February 2000, we confirm the points raised with regard to the conditions attached with the Listed Building Consent, received in this office on 18 February. We refer to each condition as follows:

Condition 01

The works have commenced, therefore this condition can be removed.

Condition 02

As indicated on site, we are using the maximum number of existing tiles for recovery and all replacement tiles will match existing in material and colour.

Condition 03

The Spanish Natural Slate was taken away by yourself as a sample. Following a telephone conversation with Natalie Brown later that day, can we formally request that this condition is now removed.

Condition 04

We are using a lime:sand mix (1:3) throughout the works.

COPY

Condition 05

As you will have noted from your inspection we are using Tyvek sarking felt for the recovering of all pitched roofs.

Condition 06

As indicated in the Application and discussed on site, it is our intention to replace the existing skylights to match existing ie polycarbonate. We await the manufacturer's brochure details from the Main Contractor and will forward them as soon as they are received.

Condition 07

When this roof was stripped we discovered that the original oak roof frame was completely overlaid with softwood machined timbers, comprising 50 x 100mm rafters at 400mm centres with new purlins, collars over. As discussed on site on 25 February we have installed some additional collars in softwood to match the existing roof frame and will forward photographic details when we have accessed the roof space from the landlord's lounge area.

Condition 08

We attach sketch (drawing No 990599/SK1) indicating the over-flooring to the existing timber flooring to the small cupboard under roof B. All the existing timbers are to remain, as discussed on site.

Condition 09

We attach a sketch of the internal works to the floor in the bar area indicated on the Application drawings (drawing No 990599/SK2), which, as you will note from our meeting on 25 February, matches the solid floor under the adjacent servery and is assumed to follow through into the lounge bar. We also indicate a proposal (drawing No 990599/SK3) of the fireplace which the landlord, Mr Dave Woodward, wishes to undertake independently of our works which you have agreed can form part of this Application. We also enclose a photograph of the existing fireplace.

Condition 10

We enclose sketch (drawing No 990599/SK4) indicating the proposed dry lining within the function room area which matches the Application.

Continued.../

Condition 11

We confirm that the ground floor windows on the front elevation, denoted W4, W5 and W6, will finish flush with the building line, as per the revised Application to match the windows on the first floor. See attached photograph of existing on first floor.

Condition 12

Profiles of windows W4, W5 and W6 will match existing on the first floor. See typical profile of same on drawing No 990599/SK2.

Condition 13

External masonry will be cleaned down and two coats of Dulux Weathershield masonry paint applied – colour white. Existing and new timber and metal surfaces will be finished in gloss paint to match existing. All colours to match existing black and white.

We trust the above information discharges all the conditions. As indicated above, we will forward details of the skylights and photographs of the roof space to roof B in the next few days.

Yours sincerely

Chris Brown
