Description of Proposed Works

Please describe the proposed works

The application seeks planning permission for the following extensions:

Two-storey side extension:
This will be constructed over the footprint of the existing garage and extend the internal living space. It will allow the addition of a fourth bedroom and enhance the ground floor layout. Rooflines, eaves heights, and materials will match the existing dwelling to maintain consistency.

Single-storey front porch extension:
A modest and proportionate porch will be added to enhance the entrance, provide weather protection and improve the appearance of the front elevation.

Rear extension (combination of single- and two-storey elements):
The single-storey rear extension will not project beyond the existing single-storey rear extension of the neighbouring property, ensuring that it respects the established building line and avoids overbearing impacts.

The two-storey rear extension has been designed with consideration of the 45° rule from the centre point of the nearest upper-floor window of the adjacent neighbouring dwelling. The design ensures that the extension does not encroach on this notional line, thereby protecting the neighbouring property's outlook and access to daylight.
