Dear James Fuller

Re: 240665 - 178 Bearwood Road, Barkham, Wokingham, RG41 4SH
Submission of NMA for variation of plain roof tile choice.

Thanks for your time and clarification on the matter previously via email. Please find below clarification of the precise change. We would like to vary to approved roof tile finish from the image shown below

While no specific tile was identified this would probably most closely resemble a Sussex Red clay finish. As the design has developed, we've been looking at various solutions and we believe that the image below of the Dreadnought - Terreal Eminence Staffordshire Blue tile would more closely align to the vernacular appearance of Bearwood road as well as more subtly working with the dark ebony cladding of the proposal's upper floor.

Please do contact if you would like any further details on the proposed change.

Kind regards
Robert Elkins Artel31
