COMMENTS:

In the event that this application is recommended for approval I would like it reported to Planning Committee for the following reasons:

Residents were not sufficiently made aware about the environmental impact of the depot; many would not have moved there if they had known lorries would be passing through 24 hours of the day. The council ought to take responsibility for this deception.

You can literally taste fumes in the air and residents have to keep their windows closed to prevent dust coming in. Several young children have developed asthma as young as 3 years old because it presents a public health hazard.

Lawyers have claimed that there will be 100 lorries per week and that noise will stay below the decibel limit but this seems highly unlikely. At the very least, I would welcome a further condition that holds them to this figure.

To be clear, I am listing this to the planning committee as a councillor.

Thanks

Cllr Alex
Freeney
