A/2002/7815

LOCATION:
Microsoft Ltd Microsoft Campus Microsoft Campus, Reading.

APPLICANT:
Microsoft Ltd C/O Adell Vass

PROPOSAL:
Proposed erection of non illuminated banners on side of buildings

EARLIEST DATE FOR DECISION: **09/12/2002**

APPLICATION WILL HAVE EXPIRED ON:
07/01/2003

CASE OFFICER: **Angela Odell**

WOKINGHAM DISTRICT COUNCIL

TOWN AND COUNTRY PLANNING ACTS

Notification of Refusal of Permission

Microsoft Ltd
C/O Adell Vass
Microsoft Campus
Thames Valley Park
Reading
Berks
RG6 1WG

Application Number: A/2002/7815

Parish: **SONNING**

Location: **Microsoft Ltd, Microsoft Campus, Reading.**

Proposal: **Proposed erection of non illuminated banners on side of buildings**

The Wokingham District Council in pursuance of their powers under the above Acts and Regulations hereby **Refuse Permission** for carrying out the above development in accordance with the application and the accompanying plans submitted to the Council, the reason for which is specified hereunder.

Reason
1. The proposed signs would be excessively large in scale and would constitute visual clutter and have a detrimental effect on the visual amenity of the area which is in the Thames River Valley Policies Area. The proposal would therefore be contrary to Berkshire Structure Plan policy EN1, Loddon Area Local Plan policies LRV1, LBE1, LBE2 and LBE10 and to policies WOS3, WLL4, WBE1 and WBE16 of the Wokingham District Local Plan (as proposed to be modified).

Date: 24/12/2002

Notice checked by: _____

If this notice grants permission to proceed with the proposal the applicant is reminded that it relates to planning permission only and does not constitute approval under any other legislation including Building Regulations.

APPEALS TO THE SECRETARY OF STATE

PLANNING & ADVERTISEMENT APPEALS

1) If you disagree with the decision of the your local planning authority to refuse planning permission or you do not think that conditions placed on an approval are justified or reasonable, then you can appeal to the Secretary of State for the Environment, Transport and the Regions.

   If you want to appeal you must do so within **6 months** of the date of the decision notice for **planning applications** and within **8 weeks** in respect of **advertisement applications**, using a form you can get from The Planning Inspectorate. They can be contacted on (0117) 372 6373 or you can write to them at ; Temple Quay House, 2 The Square, Temple Quay, Bristol. BS1 6PN.

2) In some exceptional circumstances an appeal can be considered if more than 6 months or 8 weeks have elapsed since the date of your decision. If the 6 month/8 week time limit has expired and you wish to appeal please contact the Planning Inspectorate to find out if they are willing to accept it.

3) The Secretary of State does not have to consider an appeal if it appears that the local planning authority could not have granted planning permission for the proposed development or could not have approved permission without the conditions it imposed while having regard to the statutory requirement of the development order or any directions given under the order. In practice The Secretary of State does not normally refuse to consider appeals solely because the local planning authority based its decision on a direction given by him.

4) It is a statutory requirement for all appellants to copy their appeal forms direct to Wokingham District Council, Planning Services, P.O. Box 157, Civic Offices, Shute End, Wokingham, RG40 1WR, at the same time as the appeal is sent to the Planning Inspectorate. Details of this procedure will be included on the appeal forms.

PURCHASE NOTICES

1) If the local planning authority or the Secretary of State for the Environment, Transport and the Regions refuses permission to develop land or grants it subject to conditions, the owner may claim that the land cannot be put to a reasonably beneficial use in its existing state or cannot make the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted.

2) In these circumstances the owner may serve a purchase notice on the District Council in whose area the land is situated. This notice will require the Council to purchase an owners interest in the land in accordance with the provisions of Part XI of the Town and Country Planning Act 1971.

COMPENSATION

1) In certain circumstances compensation may be claimed from the Local Planning Authority if permission is refused or is granted subject to certain conditions by the Secretary of State for the Environment, Transport and the Regions on appeal or on reference of the application to him. These circumstances are set out in Section 114 and related provision of the Town and Country Planning Act 1990.

Planning Issues :

Application Number: A/2002/7815

Appraisal :

see attached report

Recomendation : Approval: ☐ **Refusal:** ☑
(tick appropriate box)

A/2002/7815 – Appraisal

Proposal
Erection of non-illuminated banners on side of buildings. On front (north) elevation of main building, banners would cover first and second floors of the side sections (excluding central entrance section). They would be 7.8m. high and 18.5m. wide. Also on east side of subsidiary building a banner 14.675m. high (whole height excluding roof) and 5.337m. wide. (Applicant confirmed that no banner proposed on the south side of the building.)

Relevant planning history
Note banners with different information design already on building at site visit on 19/11/02. Application A/2002/7355 for a temporary non-illuminated banner on the side of Oracle building No. 520 in TVP nearby was refused permission on 27.9.02 due to its large scale being visually intrusive in a visually sensitive area, being adjacent to the countryside and river Thames. This is now at appeal. This banner was to be 10m. in height and 8m. wide.

Effect on the character and appearance of the area
The site is within an identified settlement as well as a core employment area and the Thames Valley Policy Area. Consider the banners would constitute visual clutter on this building in this modern business park, where such clutter is not currently a general feature, and would be obtrusive and detrimental to the character and appearance of this important area close to the River Thames. Could be seen obliquely from the path along the river. Allowing the application could also set a precedent for allowing other such signs (see planning history above).

No significant effect on neighbouring properties or other issues.

Recommendation: refusal

Application Number A/2002/7815
Conditions/Reasons for Refusal

No	Std Con	Std Reas	Non Std Conditions / Reasons for Refusal
1.			The proposed signs would be excessively large in scale and would constitute visual clutter and have a detrimental effect on the visual amenity of the area which is in the Thames River Valley Policies Area. The proposal would therefore be contrary to BSP Policies EN1 ~~and EN2~~, LALP policies LRV1, LBE1, LBE2 and LBE10 and to WDLP (as agreed to be modified) Policies WOS3, WLL4, ~~and~~ WBE1 and WBE16.

Dear Ms Vass

APPLICATION A/2002/7815
PROPOSED ERECTION OF NON-ILLUMINATED BANNERS ON SIDE OF BULIDINGS AT MICROSOFT CAMPUS, THAMES VALLEY PARK, SONNING

I refer to the above application and our telephone discussions. Please clarify whether the banners are only to be displayed on the north side of the main building and the west side of the adjacent building as shown on the submitted location plan scale 1:2500, or whether banners on the south side of the main building are also proposed. Please clarify this in writing, and if the latter, submit revised location plans showing that banners are proposed to be displayed on the south side of the building.

It is important that the revised plans are submitted to me within two weeks, i.e. by 23 December, to ensure that the application is not determined on the basis of the current unsatisfactory submission. Should you have any difficulty in meeting this deadline or should you wish to discuss the revised plans please contact me immediately.

Yours sincerely

Ao.

Dear Councillor

Application Number: A/2002/7815
Microsoft Ltd Microsoft Campus, Microsoft Campus, , Reading.
Proposed erection of non illuminated banners on side of buildings

I write to let you know that the above mentioned application has been received.

At this stage a recommendation has not yet been made. This form should only be returned if it is likely that you might wish for the application to be listed for consideration by the Development Control Committee. This form must be received no later than 28 days from the date of this letter.

If you have concerns about the proposals it may be possible for these to be addressed during the consideration of the application. In these circumstances it would be helpful if you could discuss these with the case officer **Angela Odell** on **(0118) 974 6445** in the first instance.

Yours sincerely
Trevor Watson
Development Control Manager

Dear Ms L. Smith

Microsoft Amazing PC Campaign.

Further to our conversation I would like express the urgency of this application.

We would like to install the graphics on the weekend of the 30th November to be ready for launch on Monday the 2nd December. However we would need a **verbal** go ahead in advance no later than the **25th October** to enable us to produce the vinyl graphics in time.

I am fully aware of the timescales that are involved and if this is not achievable please advise me as soon as possible. I will contact you on the 24th October.

Should you require further information please do not hesitate to contact me on 0118 909 3361 or 0788 191 5570.

Thanking you in advance for your assistance in this matter

I enclose a cheque or money order for the appropriate fee (See Note 6) of £ 220.00

Signed ..... (applicant/agent) Date 10.10.2002

DATA PROTECTION ACT 1984
'Information contained in this form is likely to be personal data within the terms of the Data Protection Act 1984, and as such will be held by the Council on computer (such as the PLANAPS applications processing system) and may be used by the Council only for purposes registered under the terms of the Data Protection Act.'

NOTES

GENERAL

1. Under the Town and Country Planning (Control of Advertisements) Regulations 1989, many outdoor advertisements required "express consent" from the local planning authority (usually the district council) before they can be lawfully displayed. Applicants should refer to the Regulations for details.

Period of Consent

2. Normally the maximum period for which the Council will grant consent is 5 years; but they have discretion to grant consent for a longer period. If consent is required for a specific period of more or less than 5 years, this requirement should be stated in reply to Question 8 on the application form.

Drawing Required

3. The drawing of the proposed advertisement can be in black and white on paper. It should show the size of the advertisement and its position on the land or the building in question. For a sign, the drawing should indicate the materials to be used, fixings, colours, height above the ground and, where it would project from a building, the extent of the projection.

   The drawings should include a 1:2500 scale location plan showing the site edged in *RED*. All drawings should be submitted in quadruplicate.

Owner's Consent

4. It is a condition of every consent granted by or under the Regulations that, before displaying the advertisement for which consent is given, the permission of the owner of the land or other person entitled to grant permission shall be obtained.

Other Consents

5. A grant of consent under the Town and Country Planning (Control of Advertisements) Regulation 1989 does not rank as consent which may be required for any other purpose, e.g. 'listed building consent' where the advertisement is to be displayed on any listed building.

Fees for Advertisement Applications

6. Regulation 11 of the Town and Country Planning (Fees for Applications and Deemed Applications) Regulations 1997 requires a fee to be paid to the Council with the advertisement application. The fee is related to each site on which it is proposed to display one or more advertisements. The appropriate fee for the following categories of advertisement is:-

   1. Advertisements displayed on business premises, on the forecourt of business premises or on other land within the curtilage of business premises, wholly with reference to all or any of the following matters:- **£50.00**

      (a) the nature of the business or other activity carried on on the premises:
      (b) the goods sold or the services provided on the premises; or
      (c) the name and qualifications of the person carrying on such business or activity or supplying such goods or services.

   2. Advertisements for the purpose of directing members of the public to, or otherwise drawing attention to the existence of, business premises which are in the same locality as the site on which the advertisement is to be displayed but which are not visible from that site. ~~£50.00~~ £60

   3. All other advertisements. ~~£100.00~~ £220

THE FOLLOWING SCANNED IMAGES ARE DOCUMENTS OF BAD QUALITY OR ARE PHOTOCOPIES.

FOR THIS REASON THEY MAY APPEAR UNREADABLE ON SCREEN

Product Bulletin 8171 (UK)
Release C August 1999
Black bar in margin indicates change |

3M™ Scotchcal™ Perforated Window Marking Film 8171

Description

Advantages

- Allows the full graphic image to be seen on one side and still allows viewing through a window from the other side
- Exterior, short term durability
- High gloss, vinyl film
- Highly perforated film
- White on the image side and black on the adhesive side
- Removable

Applications and Uses

3M™ Scotchcal™ Perforated Window Marking Film 8171 is intended only for use with the listed Compatible Products and the following applications. Any other application is NOT warranted by 3M or covered by the Worldwide 3M™ MCS™ Warranty unless 3M gives its prior written approval for the application.

- For making screen printed graphics for use on flat or simple curved, transparent substrates such as bus windows and store windows
- May be applied over 3M vinyl films or on painted metal between vehicle windows only
- For maximum protection, use 3M™ Scotchcal™ Protective Laminate 8914 over film 8171 to protect the graphic from environmental factors such as dust, water, and dirt that may collect in the perforated areas

Limitations of Uses

The following uses and applications are specifically NOT warranted:

- Applications other than vertical window surfaces
- If applied to non-vertical window surfaces, ensure that the driver's view is not obstructed
- Application to windows that have built-in heating or defrosting elements or windshield wipers
- Application to substrates with coatings such as anti-reflection and scratch resistance; such coatings may be damaged during film removal
- Applications that require an optically-clear view but have not been laminated with protective laminate 8914

⚠ Warning

Applications that require an optically-clear view, such as vehicle window exteriors, must be laminated with protective laminate 8914. Failure to apply this laminate could result in obstructed or impaired viewing when the product becomes wet.

- 3M Commercial Graphics Division policy is not to support applications of perforated window marking film when a driver's view is obstructed and/or where local laws prohibit its use.

⚠ Caution

Individual transport operators may have regulations that limit or preclude the use of this product on vehicle windows. The user is responsible for determining and complying with all applicable standards.

- Do not use graphics made with this product for automotive Original Equipment Manufacturers (OEM); 3M Commercial Graphics Division products are not tested against automotive manufacturers' specifications.

Compatible Products

- 3M™ Scotchcal™ Screen Printing Inks
  Series 1900 line inks
  Series 1900, 4-colour inks
- Series 9700 UV line inks
  Series 9700 UV, 4-colour inks
- 3M™ Scotchcal™ Protective Laminate 8914
- Selected 3M vinyl films
- 3M™ Scotchcal™ ElectroCut™ Film Series 100-114
- Various 3M application tapes (See Premasking and Prespacing on page 3)

The following 3M products are referenced on this page:

- Series 9700 UV
- Series 9700 UV, 4-colour

Overprint Clears:
3M™ Scotchcal™ Gloss Overprint Clear 1920DR
3M™ Scotchcal™ Gloss Overprint Clear 9720
3M™ Scotchcal™ Gloss Overprint Clear 9730 (Low-Gloss)

Characteristics

This information, for Scotchcal Perforated Window Marking Film 8171, is subject to change. Refer to the 3M Price Pages for current information.

Property	Description
Film	White on the image side, black on the reverse side
Liner	Polyethylene-coated paper with a clear film backing
Adhesive	Clear, removable, pressure sensitive
Thickness with adhesive	0.10 to 0.13 mm (4 to 5 mil)
Application substrates	Transparent acrylic, glass, polycarbonate, 3M vinyl films, painted metal between vehicle windows
Removability	Up to 1 year on glass, acrylic, polycarbonate
Application temperature range (air and surface)	12° to 38°C (54° to 100°F)

Effective Performance Life

The effective performance life is based on field experience and exposure tests conducted throughout the United States. When the graphics are processed and used according to 3M recommendations, they should have the performance life shown in the chart below. The actual performance depends on the:

- Correct combination of film, ink, and laminate or overprint clear
- Ink formulation
- Drying methods
- Selection and preparation of the substrate
- Application methods
- Exposure conditions
- Cleaning methods

Warranted Durability

The following chart is for window graphics constructed using film 8171 protected by 3M™ Scotchcal™ Protective Laminate 8914 or one of the overprint clears from the listed ink series.

Vertical Exposure
face of graphic is ± 10° from vertical

Ink Series	Use Laminate OR Overprint Clear		Interior [1,2] *Years*	Exterior *Years*
	Protective Laminate	Overprint Clear		
1900 line colour	8914	1920 DR	5	1
1900, 4-colour	8914	1920 DR	5	1
9700 UV line colour	8914	9720 UV 9730 UV	5	1
	none	none	2	0
9700 UV, 4-colour	8914	9720 UV 9730 UV	5	1
	none	none	2	0

[1] Does not include inside application to exterior windows.

[2] Removability is warranted for only 1 year.

Screen Printing

To obtain the Warranted Durability, use the correct combination of ink and overprint clear. If you are using a protective laminate, an overprint clear is not required.

Follow the processing instructions carefully. Check the ink Product Bulletins and Instruction Bulletins for limitations specific to a particular ink.

Refer to Compatible Products on page 1 for the appropriate inks.

Print a test sample. The image may appear lighter when it is printed on perforated film. Increasing the colour density may make up for some image loss. Images printed on this film may not hold the same level of fine detail as on solid films.

Because film 8171 is perforated, some of the ink from the fill pass does not transfer to the film. To maintain a good image, it may be necessary to print a paper slip sheet after every 10 to 15 impressions. The clear film on the back of the liner helps maintain a vacuum and prevents the ink from getting onto the bed of the press.

Lamination

For maximum protection and/or for applications that require an optically-clear view, use protective laminate 8914. Apply with a cold roll laminator. See Instruction Bulletin 4.22.

Cutting

Common cutting methods are:

- Cold steel rule die
- Razor blade
- Sharp knife

Premasking and Prespacing

3M application tape may help with the application of a graphic. The tape used depends on the type of graphic produced and the overprint clear or protective laminate that is used. Graphics that have large amounts of exposed liner or are kiss cut use a prespacing application tape. If there is very little exposed liner, use a premasking application tape.

Overprint Clear or Protective Laminate	Premasking Tape	Prespacing Tape
Unprinted	SCPM-19	SCPS-100
1920 DR	SCPM-19	SCPS-100
9720 UV 9730UV 9700 UV with no overprint clear	SCPM-44X	SCPM-44X
8914	not required	

Application

Refer to the 3M Related Literature section for the appropriate application Instruction Bulletins. The following application details are specific to 3M™ Scotchcal™ Perforated Window Marking Film 8171.

1. If the perforated film is applied to the painted metal surfaces between windows, the image may not look consistent. To maintain a consistent image, an opaque 3M vinyl film may be applied to the surfaces between windows before the perforated film is applied. The colour of vinyl film used depends on the image you want.
2. Do not apply graphics if the air or surface temperature is less than 12°C (54°F).
3. During application do not stretch the material into the window well or onto the window itself. Cut the film to the shape of the window before squeegeeing it down onto the window. To do this, tack down the graphic in the center of the window, cut the graphic to the shape of the window, then squeegee the graphic out to the window edges. Stretching the window graphic causes tension that can result in the graphic shrinking and its edges curling.
4. Do not use a heat source directly on the window substrate. This can also cause the graphic to shrink and its edges to curl.
5. Trim the film and the overlaminate to ensure there is a minimum 6mm gap between the graphic and rubber window seal/window edge. This minimizes the chance of the graphic absorbing water that may collect in the window edge.
6. Do not apply the window marking film, or any other film, to the rubber parts on the vehicle as the film will not remain adhered.
7. If two graphic panels meet side by side on a window, carefully trim the film so that the panels meet and form a butt seam. Do not overlap the panels.
8. When possible, do any trimming before applying the film. Cutting the film after applying it may permanently scratch the application substrate.

Edge Sealing

When Scotchcal Perforated Window Marking Film 8171 is overlaminated with 3M™ Scotchcal™ Protective Laminate 8914, the finished graphic usually does not need an edge sealer. However, a 10mm wide strip of 3M™ Scotchcal™ ElectroCut™ Film Series 100-114 around the edges, if any of the following conditions exist:

- The graphic has an intricately-cut design that does not completely cover the window.
- The graphic will be cleaned frequently by high pressure spray. See Instruction Bulletin 6.5 for more details.
- On a daily basis the graphic is exposed to changes in altitude of more than 1219m (4000 feet).
- Graphics intended for vehicular use.
- For detailed application, please refer to Instruction Bulletin 5.23.

Removal

Scotchcal Perforated Window Marking Film 8171 is removable from glass, acrylic, and polycarbonate for up to 1 year.

Use heat to remove the graphic. Refer to Instruction Bulletin 5.23. Follow the removal instructions carefully. Substrates with coatings such as anti-reflection and scratch resistance may be damaged during removal.

Removal Temperatures

Substrate	Temperature
Glass	16° to 38°C (60° to 100°F)
Acrylic, polycarbonate	21° to 38°C (70° to 100°F)

Shelf Life, Storage, and Shipping

- Unprocessed film has a shelf life of 2 years from the date of receipt from 3M. Processed film must be used within 1 year, even if the combined shelf life as processed and unprocessed film is less than 2 years.
- Store the graphics in a clean, dry area, out of direct sunlight, and at a temperature less than 38°C (100°F).
- Be sure the ink and overprint clear are dry before packaging the finished graphic.
- Ship the finished graphic lying flat or in a roll. To roll the graphic, wrap it film side out on a minimum 152 mm (6 inch) diameter core. These methods help prevent the liner and premask from wrinkling or popping off.

Product Data

These properties are for film 8171 only.

Property	Metric Units	Imperial Units
Tensile strength (minimum)	18 N/25mm	4.2 pounds/inch
Service temperature range	-34° to 65°C	-30° to 150°F

Flammability

Film 8171 has been tested for flame spread per ASTM E84-91a, "Surface Burning Characteristics of Building Materials," and the results show that the material meets the requirements of National Fire Protection Association Class A as defined in NFPA 101, "Life Safety Code."

Patent Acknowledgment

3M™ Scotchcal™ Perforated Window Marking Film 8171 is licensed from Contra Vision Group under U.S. Patent No. 4,673,609 (and 15 corresponding patents worldwide in the following countries: Australia, Austria, Bahrain, Belgium, Canada, Cyprus, France, Germany, Hong Kong, Italy, Liechtenstein, Malaysia, Netherlands, Singapore, Spain, Sweden, Switzerland, and U.K.).

Health & Safety

Refer to the package label and the Material Safety Data Sheet for health, safety, and handling information on the products referenced in this bulletin. For 3M products, if necessary, you may contact our Toxicology/Product Responsibility Department on 01344 858000.

Important Notice to Purchaser

The 3M products described in this publication are covered by a 3M warranty and limitation of liability.

3M's warranty provides that if 3M finds that goods are defective in material or workmanship they will be replaced or the price refunded at 3M's option but note that 3M does not accept liability for other direct losses (except for personal injury or death) or consequential losses relating to defective products or from information supplied by 3M.

Purchasers and users of 3M products, and not 3M supplying companies, are always solely responsible for deciding on the suitability of the 3M product for their required or intended use.

Product Bulletin 8644 (UK)
Release (UK) July 1998

3M™ Scotchcal™ 8644
Promotional Grade Marking Film

Description

3M Scotchcal 8644 Promotional Marking Film is designed for use with 3M Scotchprint™ Electrostatic Printing Systems. It is compatible with 3M's Scotchprint 8601 Transfer Media and Scotchcal 8934 and 8935 protective overlaminates. It can also be used with Scotchprint 8603 and 8605 Wear Coat. The film is intended for flat surfaces.

Features

- Polymeric White Vinyl
- Kraft Liner
- Removable Pressure Sensitive Adhesive

Applications

- Point-of-Purchase displays
- Promotional signage
- Event advertising
- Decals
- Posters

Laminators

Scotchcal 8644 can be used on any of the authorised 3M Scotchprint laminators. Recommended transfer settings for three commonly used laminators are:

Crest 1600 TTL

Temperature upper roll.....140°C

Temperature lower roll.....60°C

Speed.....40 to 70 cm/min

Pressure.....85% - 95%

Crest HSTL

Temperature upper roll.....100°C

Temperature lower roll.....60°C

Speed.....up to 300 cm/min

Pressure.....4.3 bar

Protech ORCA III

Temperature.....143°C (top roll only)

Speed.....40 to 70 cm/min

Pressure.....90-100 psi

Physical Properties

Values given are typical and are not for use in specifications. If a custom specification is desired, a request should be submitted through your sales representative. The data given below is for film without transferred images applied.

Thickness:.....0.10 mm (film only)

Adhesive:.....Removable

Application Temperature Range:.....5°C to 25°C

Temperature Range:.....-20°C to 70°C

Expected Effective Performance Life and Warranty

When printed and applied in accordance with 3M recommended procedures and processed with Scotchprint 8700 Toners, Scotchprint 8601 Transfer Media, Scotchcal 8934 or Scotchcal 8935 protective overlaminate, Scotchcal 8644 is warranted for 6 months in exterior vertical (or within 10° of vertical) exposures.

A significant decrease in durability may be experienced if films are exposed other than vertical. Such non-vertical applications must be on test and approval basis to determine acceptability. 3M does not warrant non-vertical exposures.

Graphics on Scotchcal 8644 film with Scotchprint 8603 or Scotchprint 8605 Wear Coat are not warranted.

Storage

Scotchcal 8644 Promotional Marking Film, when maintained in original packaging, shall be capable of storage under environmental conditions of 20% to 50% relative humidity and 4°C to 27°C without deterioration of its original physical properties for a period of up to one year.

VINYL GRAPHICS LTD

METHOD STATEMENT No: Microsoft/002

DESCRIPTION OF WORK

Installation and later removal of Microsoft graphics to windows and aluminium panels on the sided, front and rear of buildings.

SCOPE OF WORKS

On arrival the team supervisor will make sure the buildings manager is happy for work to proceed. The front windows will be accessed using a self propelled lift supplied by Nationwide Access and delivered to site. The backing paper will be removed and the vinyl will be applied using an application squeegee. The side and rear graphics applied to the aluminium will be accessed by the same lifts. Lifts will have ply wood placed under wheels to stop sinking into tarmac surface. All rubbish will be bagged up and removed from site. Car park to be empty of cars for access. To remove the graphics by picking a top corner and gently pulling down making sure that no adhesive residue is left on the window or aluminium. once all the graphic is removed it will be bagged up and removed from site.

WORKFORCE

A team of up to 4 vinyl applicators

TRAINING

All trained vinyl applicators

PORTABLE TOOLS

Snap-off knife
Application squeegee

PLANT & MATERIALS

Rubbish bags
Self propelled access lift
Vinyl graphics

WORKING AT HEIGHTS

Working to a height of not more than 30 metres from ground within access lift basket

HAZARDOUS SUBSTANCES/PROCEDURES

No hazardous substances to be used

STORAGE

All plant and materials will be removed from site after every shift.

FIRST AID

For routine first aid, the kits carried in vans will be used. If an operative needs to be treated in hospital, the address will be obtained from the supervisors room or an ambulance called. Details of the accident will be entered into the Accident Book and an accident report form completed.

FIRE PREVENTION PRECAUTIONS

Operatives will make themselves aware of local fire points, call points, hydrants and extinguishers.
If an operative is the first to be made aware of an incident he will report it to the supervisor.

PERSONAL PROTECTIVE EQUIPMENT

High visibility clothing (EN471 class 2) and safety boots
Hard hats if required.
Safety harness

HOUSEKEEPING

If the site is left unattended, operatives will ensure the site is tidy and secure and poses no threat to Microsoft staff or visitors.

ACCESS AROUND THE WORK SITE

Arrangements to be agreed with Buildings Manager.

EMERGENCY PROCEDURES

If any of the operatives is the first person to be made aware of an emergency, he will contact the Buildings Manager or ring the emergency services on 999.

SIGNS AND NOTICES

N/A

SYSTEMS-CODES OF PRACTICE

All work to be carried out as agreed. Operatives will have read and understood relevant sections of the safety guide. A No Smoking policy will be adopted whilst the work is carried out.
The team will use the welfare & hygiene facilities available locally within building.
The team supervisor will have a copy of the relevant Risk Assessment & Method Statement.
The team supervisor will carry out a detailed inspection of the area on completion.

REMOVAL - DISPOSAL OF WASTE

All waste will be removed from site at the end of each shift.
