COMMENTS:

I do support the proposed change of use of the building to create an Islamic education, worship, and community centre. This initiative will significantly contribute to our diverse community by providing a welcoming space for education, cultural exchange, and spiritual growth for everyone in the community.

Such a centre will not only serve the local Muslim population but will also foster greater understanding and cooperation among different cultural groups in our area. It will offer valuable educational programs, community services, and social activities that promote inclusivity, tolerance, and mutual respect.

Moreover, the establishment of this centre aligns with our community's values of diversity and support for various cultural expressions. It will provide a platform for dialogue and community engagement, helping to build stronger relationships among residents.

I encourage the council to consider the positive impact this centre will have on our community and support the application.

Thank you for considering my comments.
