Planning Issues :

Application Number: F/2002/8036

Appraisal :

Single storey rear extension forming conservatory. With brick plinth, white pvc frame and roof. Low pitch to fit under eaves line.
3.310 deep and 3.876 wide.

The site is with a settlement boundary and in an area of similar style dwellings. To the rear is a derelict parking area which once contained garages.

The property is the centre one of a terrace of three on a level site with a 20 metre rear garden which is east facing. The street scene is not affected as the proposal is in the rear garden. The proposal exceeds the 3m guideline and does not comply with the 45° angle due to a dining room window in no 117. It is however constructed mainly of glass and has a very low pitch to the roof. As such it would not have an overbearing effect nor would there be any undue loss of light. In the circumstances it would be difficult to justify a refusal and a reduction in length to 3 metres would not be of any significant benefit.
For these reasons the proposal is recomended for approval.

Hi Daniel

Although this site is within 500 metres of a known great crested newt breeding pond it is separated from it by dense residential development and a number of minor roads. It is unlikely that this application would have an adverse affect on the local great crested newt population. We will not require a newt mitigation scheme but should attach the following informative to any permission granted.

If great crested newts are encountered at any point during development then all works must stop immediately and local English Nature office and Wokingham District Council must be informed.
