: 4 Pennycroft Cottages, Basildon, West Berkshire, United Kingd
: RG8 8ND
SUBMITTED BY : Mr Benjamin Baker
DATE SUBMITTED : 18/10/2026

COMMENTS:
The construction of the data centre will destroy the local community, acting not only as an eyesore to the surrounding meadows and fields but also as a major contributor to pollution and emissions within the area. I understand many of these centres use different harmful
chemicals as a means to prevent rusting and long term damage. These are incredibly harmful to the environment. As a civilian who uses the local river several times a week I fear greatly. This centre will (and believe me it will) pollute the river with these chemicals and it will damage local wildlife and kill the several community centres it
upholds. PLEASE DO NOT DO THIS
