COMMENTS:

My objection is limited to the near doubling of height and inclusion of the large picture windows along most of the west elevation looking directly into our garden. These large windows, only 3 metres away from our boundary, result in a total loss of privacy in our garden. I have no objection to the extension in principle, although it does seem overbearing and out of context given its location in a cul-de-sac of matching bungalows, but would very much appreciate a rethink of the windows to provide a happy compromise between natural light in the upper rooms and retaining privacy for us, and for the new owners and their family come to that.

I would be very happy to discuss this issue with the new owners if they're happy to, we will be neighbours for a long time after all!

I am a little late with my comments, we had no letter of notification of this plan, I only found out on Sept 4th when my immediate neighbour mentioned it, just before we went away for a few days. Why were not officially notified, given our shared boundary with this application?
