COMMENTS:

Please note our comments submitted with this original application number 241959 on the 4th August 2024. In particular note that work was started from a previous application number 240651 which was subsequently breached. In spite of the breach notification, work has continued and now permission is being sought to retrospectively seek approval with the new additions of revised fenestration, render finish to all brickwork and roof tiles.

We ask that you give particular attention to our previous comments and to the design, appearance and materials used and your previous planning decisions which were ignored.

Will you also ensure that off road parking remains sufficient.
