

Proposed Rear Elevation

Proposed Front Elevation

Existing Floorplan

Please study these plans carefully and note the dimensions shown along with any comments and additional details relating to your project. We would also ask that you pay particular attention to the actual position on the building and the distances from each side of your property in relation to a gate, fence, boundary, or existing door or window locations, as these drawings will be issued to our builder.

Any changes, errors or amendments to these drawings must be notified in writing by email or post immediately. The surveyor and NOT your original sales representative will need to further advise that NO changes can be made to these plans, once works commence on the site as additional costs and charges may be incurred.
