Dear Sir

SENT BY RECORDED DELIVERY

NOTICE TO INSTALL TELECOMMUNICATIONS APPARATUS PERSUANT TO SCHEDULE 4 OF THE LICENCE GRANTED TO VODAFONE LIMITED UNDER SECTION 9 OF THE TELECOMMUNICATIONS ACT 1984

On behalf of Vodafone Limited, Crown Castle International hereby gives notice as required under Schedule 4 of Vodafone's Licence under the Telecommunications Act 1984 in respect of the following development;

Three number dual polar antennas at a base height of 25m on the existing Vodafone headframe

AT: Crown Castle's existing transmitting station, Henley-on- Thames Transmitting Site, Remenham Hill, Remenham, Henley-on-Thames, Oxfordshire RG9.

Please find enclosed a location plan, elevation drawings and site plan. Please note the additional antennas have been underlined in red for ease of identification.

The proposal is permitted development under Part 24 Class A (a) of the GPDO and no fee is payable.

If additional information is required regarding this Notice, please do not hesitate to contact the undersigned. I have notified English Heritage as a matter of courtesy.

Yours faithfully

M Baxter

Melanie Baxter
Acquisition Surveyor

Received by Wokingham District Council

Application No: TL/2000/1930

Proposal:
Proposed addition of 3 dual polar antennas at a base height of 25 metres on existing vodafone headframe.

Location:
Transmitting Station, Remenham Hill, Remenham, Henley-On-Thames.

The application is available for inspection at Wokingham District Council's offices during the following times:

PLANNING DEPARTMENT, SHUTE END, WOKINGHAM TEL (0118) 974 6428
8.30 - 5.00 Monday - Thursday & 8.30 - 4.00 Friday

WOODLEY LIBRARY HEADLEY ROAD WOODLEY (9.30am - 7.00pm Mon, Thurs & Fri. 9.30am - 5.00pm Tues, 9.30am - 1.00pm Saturday. closed all day Wednesday). If you intend to view this application at Woodley Library (see details above) please allow 4 days from the date of this notice for delivery of plans.

Comments should be sent in writing QUOTING THE APPLICATION NUMBER to the Case Officer Nicola Lake P.O. Box 157 Council Offices, Shute End, Wokingham Berkshire, RG40 1WR to arrive on or before 05/08/2000. Written comments submitted will become available for public inspection.

In view of the very large number of planning applications and letters of comment received, it will not normally be possible for an individual reply to observations made. However any comments will be taken into account when the application is determined and you will be notified of the decision.

Consultation Responses :

Planning Issues :

Application Number: TL/2000/1930

Appraisal :

The proposed equipment is to be erected on an existing 45m mast at a height of 35m. The proposed equipment would have no significant material effect upon the appearance of the mast or the surrounding area.

As such the Council does not require prior approval over the siting or appearance of the proposed telecommunications apparatus

Dear Ms Lake

Application TL/2000/1930

I live within 'influencing distance' of the radio mast. There are so many transmitters & receivers it is hard to be accurate but I count over 40 such aerials at the moment.

Before permission is granted for yet more I request appropriate research findings or scientific proof is provided that confirm we are not in any danger from emissions.

No further approval should be granted until we are satisfied on this very serious concern.

Yours faithfully

Dear Nicola Lake

Re: Application no: TL/2000/1930

I am very concerned about the application for three more aeriels to be fixed onto the transmission mast at Remenham Hill.

As a mother of 2 young children we live within 100 yards of the mast and I am worried about the health risks resulting from the microwave emissions.

As we already have 14 aeriels on the mast - can this be enough. No more please.

Yours sincerely,

Emma Lerche-Thomsen

Dear Mr Baxter,

TELECOMMUNICATION NOTIFICATION FOR THE ERECTION OF 3 DUAL POLAR ANTENNAS AT A BASE HEIGHT OF 25M ON THE EXISTING MAST AT TRANSMITTING STATION, REMENHAM HILL, REMENHAM. APPLICATION NUMBER TL/2000/1930.

Thank you for your telecommunication notification which was received by this Council on the 11 July 2000, regarding the about stated development.

I write to confirm that Wokingham District Council does not wish to have prior approval of sitting and appearance for the erection of 3 Dual Polar Antennas at a height of 25m on the existing mast at the Transmitting station, Remenham Hill, Remenham.

I hope this information is of assistance to you.

Yours sincerely,

JOHN MITCHELL.
Development Control Manager.

Date: 28 July 2000

PROPOSED ADDITION OF 3 DUAL POLAR ANTENNAS AT A BASE HEIGHT OF 25 METRES ON EXISTING VODAFONE HEADFRAME

LOCATION: TRANSMITTING STATION, REMENAHAM HILL, REMENHAM

I have evaluated the above proposals and have no objections to planning consent but have the following comments to make in relation to this proposal:

There have been questions raised as to the possibility of adverse health effects from electromagnetic radiation from telecommunication base stations and their positioning in relation to residential development and, in particular schools.

The National Radiological Protection Board (NRPB) was established by the Radiological Protection Act 1970 and is responsible for conducting research and providing advice and services for protection against ionising and non-ionising radiation's in the U.K. They are continually reviewing the vast body of world-wide research on the subject.

The NRPB's current advice is that there is no proven human health risks from these installations. This position is confirmed by the Chartered Institute of Environmental Health and pressure groups such as Powerwatch network . There are however countries and areas of the world where precautionary measures have been adopted , e.g. New Zealand Ministry of Education has issued a policy statement preventing cellular phone antennas from being sited at state schools in the future.

Further research is currently being undertaken into possible health implications although to date no definitive statement can be made.

The NRPB have set up an Advisory Group to look into this matter. This Group has concluded, in reference to buffer zones for sensitive developments, that there is neither a clear basis from which to derive a meaningful assessment of risk , nor is there any indication of how putative risk might vary with exposure. Thus there is no scientific justification for seeking to reduce exposure in these situations and that a decision to do so must be based on social and economic rather than scientific grounds.

The Chartered Institute of Environmental Health's current policy is as follows :

"The CIEH with regard to overhead and buried high voltage power lines, electricity sub-stations, wind generators, microwave and radio transmitters, mobile telephone base stations and other similar installations emitting electro magnetic radiation (EMR) in close proximity to dwellings considers :

a) That the effect on human health based on current scientific evidence is insignificant and not proven.
b) That there is no convincing national or international scientific research linking Electromagnetic Radiation and deterioration in human health.
c) That a precautionary approach to restricting building or access near such installations (apart from physical safety barriers) cannot be sustained on health grounds alone and if adopted must be based on access, amenity, and public acceptability considerations.
d) That local authorities should adopt a policy on how to address questions from the public on Electromagnetic radiation from such sources."

Please contact me if you require further information.

25 July 2000

The Planning Officer
Wokingham District Council
Shute End
Wokingham

Dear Sir,

Planning Application No TL 2000/1930
Radio Mast at Remenham Hill

This is the third application in respect of this mast to be made within the last 12 months. The earlier two were in respect of 5 and 2 additions, respectively, and the current one is for '3 dual polar antennae at a base height of 25metres on existing vodaphone headframe'.

It is the opinion of the Parish Council that the current application (and any future applications) should be refused on the following grounds:

1. The existing mast, whilst it may not be in a formal conservation area, is certainly in an area of considerable scenic beauty and any further additions would be an unacceptable eyesore in the area.
2. The additional traffic, generated by service vehicles of the additional users of the mast, would be unacceptable over the private roads by which the mast is surrounded.
3. At all times, but particularly in winter when the leaves are off the trees, the visual scar caused by the mast, to the surrounding houses, should not be increased by any further additions.
4. The mast is situated in the Green Belt, where development should be strictly controlled.

Yours truly,

JAH West.
Chairman, Remenham Parish Council

Dear Ms Lake,

Application TL/2000/1930 - Mobile phone aerials

I write as a local resident who is very concerned at the potential health risk from having yet more aerials on the transmitting tower on Remenham Hill.

This tower is 200 yds from my house, and while some of the aerials are the long distance 'dish' type the current application is for di-pole aerials intended to blanket the local area for mobile phones.

In this year alone we have seen permission granted for fourteen new aerials on this tower, and now enough health risk is quite enough.

It is now accepted that overuse of a mobile phone next to the head is a health risk, and while the aerials are 200 yds away, there will now be 17 of them, all operating 24hrs a day. This drenching of my house in microwaves is in addition to the effect of the innumerable existing aerials. Schools are now objecting successfully to single towers near their sites; I have a child on 11 and there are 4 other children in neighbouring houses; some closer to the tower than I am.

There is also the issue of increased traffic to the tower; if anyone suggested a new residence along our lane, one reason for not allowing it would be the increase in traffic.

I object strongly to this application and wish to see no more radio emissions from this tower

Yours sincerely.

Francis Burley

Dear Nicola Lale,

I am reliably informed by your office that it is normal to give prior approval to all applications to existing masts. Consequently your letter informing me of your intentions and inviting my comments is a pure formality. This is the 3rd application this year. My questions and comments are the same as in my previous letter. For the last application. It is clear that local residents and our interests are not represented.

Yours faithfully

Mrs Burdetson.

Dear Sir

SENT BY RECORDED DELIVERY
NOTICE TO INSTALL TELECOMMUNICATIONS APPARATUS PERSUANT TO SCHEDULE 4 OF THE LICENCE GRANTED TO VODAFONE LIMITED UNDER SECTION 9 OF THE TELECOMMUNICATIONS ACT 1984

On behalf of Vodafone Limited, Crown Castle International hereby gives notice as required under Schedule 4 of Vodafone's Licence under the Telecommunications Act 1984 in respect of the following development;

Three number dual polar antennas at a base height of 25m on the existing Vodafone headframe

AT: Crown Castle's existing transmitting station, Henley-on- Thames Transmitting Site, Remenham Hill, Remenham, Henley-on-Thames, Oxfordshire RG9.

Please find enclosed a location plan, elevation drawings and site plan. Please note the additional antennas have been underlined in red for ease of identification.

The proposal is permitted development under Part 24 Class A (a) of the GPDO and no fee is payable.

If additional information is required regarding this Notice, please do not hesitate to contact the undersigned. I have notified English Heritage as a matter of courtesy.

Yours faithfully

M Baxter
