COMMENTS:

We do not want more housing. It'll lead to more congestion on our inadequate roads which is awful now and we all have to allow for delays to get anywhere. Schools, doctors and dentists are over subscribed. There's no pleasure living in this area, pollution levels have increased with hundreds if not thousands more cars in our area. What about the basics ie. Adequate water supply, where's that coming from? Sewage where's that going? Having lived in Crowthorne since the late 1950s I find it so depressing seeing the over building here with less quality of life.
