

**Table 5: Households by size**  
**South East, 2015 to 2021**

This worksheet contains one table. The table contains estimates of the number of households by the number of people living within the household, for South East England.

Totals may not sum due to rounding.

Some cells refer to notes which can be found in the 'Notes' worksheet.

Symbols are used in this worksheet. The meaning of each symbol can be found in the 'Cover sheet' tab.

CH+/- is the upper(+) and lower(-) 95% confidence interval. The confidence interval provides an estimated range of values in which an actual data value is likely to fall 95% of the time. For more information, see 'Statistical robustness' tab.
