Monday, 22 May 2006

My ref: JRF/0101-d04

Your ref: F/2001/3179

Dear Mrs Jackson,

***Planning Permission ref F/2001/3179***
***Extensions and new garage***
***At "Yew Gate", Remenham Hill, Remenham, Henley-on-Thames, RG9 3EP***

I refer to the above and to your letter of 20 April 2006 discharging condition 2 of the planning permission.

I write to confirm that the development was commenced last week, with the digging of trenches that are to contain part of the foundations of the approved development. The trenches relate to the foundations for the south elevation, and part of the east elevation, to the "Front Lobby" - as identified on approved Drawing No.19A. I enclose photographs (taken on Sunday 21st May 2006) showing the trenches that have been dug. I can confirm that Mr A Lee, one of the Council's Senior Building Control Surveyors, observed the trenching works on 17th May 2006.

I shall be grateful if you will note further to Section 56 of the Town & Country Act 1990 that the development specified in application F/2001/3179 has been duly commenced within the five year period specified in Condition 1 of the permission; and that the permission now remains extant.

Yours sincerely,

**John R Freeth**
