Proposed location of solar panel installation

Photo 1: proposed location for panel installation – flat roof, and south-facing pitched roof on pool house.

View of pool house from southern boundary of property

View southwards from pool house, showing that the pool house is not overlooked by any neighbouring property.

View eastwards from pool house, showing that the pool house is not overlooked by any neighbouring property.

View westwards from pool house, showing that the neighbouring property has no windows overlooking the pool house.

View eastwards from the western boundary of the property, towards the pool house

View of flat roof, showing that the flat roof is about 30cm below the roof line
