COMMENTS:

Shinfield Parish Council generally opposes any change of use for amenity land. However, in this instance, it is evident that the land will remain isolated and is not being maintained by the land management company. On this basis, SPC raises no objection to this aspect of the proposal. Nevertheless, a detailed planting plan should be submitted and agreed prior to determination of the application. This is particularly important given that the existing outbuilding will be visible from the public highway, and appropriate landscaping will help mitigate its visual impact.
