Dear Mr Howes,

TREE PRESERVATION ORDER NUMBER: 170/1980
APPLICATION NUMBER: 242855
**SITE ADDRESS: 4 5, 6 AND LAND TO THE NORTH OF PEEL CLOSE, WOODLEY,
WOKINGHAM, BERKS, RG5 4SR**

I am writing to you regarding your application to carry out works to protected tree(s), which was received and validated on the 11th November 2024.

I can confirm Wokingham Borough Council **refuses consent**, to the following work being carried out to tree(s) included in the above-mentioned Tree Preservation Orders (TPO):

Proposed tree works to TPO 170/1980:

T1 Lime (G3 on TPO)

- Lift canopy to 6 metres and Crown Thinning by 15-20%

T2 Lime (G3 on TPO)

- Lift canopy to 6 metres and Crown Thinning by 15-20%

T3 Lime (T2 on TPO)

- Lift canopy to 6 metres and Crown Thinning by 15-20%

T4 Lime (G2 on TPO)

- Lift canopy to 6 metres and Crown Thinning by 15-20%

T5 Lime (G3 on TPO)

- Lift canopy to 6 metres and Crown Thinning by 15-20%

Reasons stated for works:

- Excessive shading on all three properties

Officer comments:

When looking to undertake works to a protected tree it is the responsibility of the applicant to supply adequate proof with the TPO application, in the form of 'written arboricultural advice or other diagnostic information from an appropriate expert.' To date, no detailed arboricultural information has been submitted to demonstrate that the tree is dangerous or diseased or that the proposed work is in the interests of health and safety.

Wokingham Borough Council does not usually permit pruning works to alleviate shading as this is an inevitable consequence of trees in residential areas. Allowing trees to be pruned for this reason would set an unacceptable precedent when it comes to looking at similar applications in the future. Also, the trees under application are deciduous and will be out of leaf for approximately 5-6 months of the year when natural light levels are at their lowest. During this period, any shading the tree may cause would be negligible and it is therefore not considered to be excessive.

The proposed crown lifting to 6m will remove 20 to 50% of the trees' canopies, creating multiple large pruning wounds on the main trunks that would become entry points for disease and decay causing organisms, and negatively affecting the natural shapes of the tree crowns.

Due to the reasons stated above the proposed works listed above have been refused.

However, I can confirm that Wokingham Borough Council **consents, with conditions**, to the following work specification being carried out to the tree(s) included in the aforementioned Tree Preservation Order (TPO):

Approved Tree Work to Group 3 of TPO 170/1980:

T1 Lime (G3 on TPO)

- Reduce branches by a maximum of 1.5m and no further than previous pruning points

T2 Lime (G3 on TPO)

- Reduce branches by a maximum of 1.5m and no further than previous pruning points

T5 Lime (G3 on TPO)

- Reduce branches by a maximum of 1.5m and no further than previous pruning points

Approved Tree Work to Group 2 of TPO 170/1980:

T4 Lime (G2 on TPO)

- Reduce branches by a maximum of 2m and no further than previous pruning points

Approved Tree Work to T2 of TPO 170/1980:

T3 Lime (T2 on TPO)

- Reduce branches by a maximum of 1.5m and no further than previous pruning points

The consent is granted subject to the following conditions:

1. The above works must be completed before **27th December 2026** and in the event of the works not being completed by that date, further consent will be required.
2. Work must be carried out in accordance with British Standard 3998 – 2010 'Tree work - Recommendations'. Ensuring all branches are taken back to a suitable growth point.

3. Climbing spikes shall not be used whilst undertaking any form of works on living trees, except on trees to be felled.

Reasons for conditions 1-3.....

1. To ensure that our records remain accurate.
2. To ensure the health, safety and visual amenity of the tree(s) and ensure works are undertaken in accordance with recognised arboricultural good practice.
3. Spikes can cause extensive long-term damage to trees.

Informative:

If you are aggrieved by any of the conditions attached to your consent, you may appeal to The Planning Inspectorate (PINS). Because of coronavirus (COVID-19), you can currently only make a planning appeal online. You cannot currently apply by post.

For more information go to:

<https://www.gov.uk/government/publications/tree-preservation-order-appeal-form>

Telephone: 0303 444 5570 or e-mail it to: treeandhedgeappeals@planninginspectorate.gov.uk

Your appeal should be received within one month of receipt of this decision or any such longer period as the Planning Inspectorate may allow.

You are advised that this letter is in respect of the **Tree Preservation Order only** and it does not imply that consent would be forthcoming from the owner of the tree(s) or any such other persons from whom consent would be required.

If we can be of any further assistance, please contact the Tree Officer via email to: development.control@wokingham.gov.uk

Yours sincerely,

Chris Hannington
Trees and Landscape Team Manager

cc. Applicant - Mr Anthony Paine, 5 Peel Close, Woodley, RG5 4SR

Please note that your attention is drawn to the following information:

Bird Nesting Season and Presence of Bat Roosts

In accordance with the Wildlife and Countryside Act (1981) and Countryside Rights of Way Act (2000), consideration must be given to the timing and type of tree work operations, to avoid causing disturbance to any nesting birds or bat roosts that may be present within the tree(s).

The Act makes it an offence (subject to exceptions) to intentionally kill, injure, or take, possess, or trade in any wild animal listed, and prohibits interference with places used for shelter or protection, or intentionally disturbing animals occupying such places.

It is advised that all non-urgent major tree work and hedge cutting operations are undertaken at a time to avoid disturbing nesting birds during the breeding season (to which the bird nesting season is considered to be from March to July). Where bats are suspected to be present, it is recommended that advice first be sought from a licenced bat specialist and if appropriate, the relevant licence(s) be obtained before any major tree work or hedge cutting commences.

Forestry Act 1967 and Felling Licences

If it proposed to fell a tree or trees greater than 5 cubic metres or sell more than 2 cubic metres of timber in any calendar quarter, a Felling Licence from the Forestry Authority may be required.

Please note that Felling Licences are not required to remove trees from domestic (residential) gardens. Where you are the landowner of large pieces of land with numerous trees, clarification from the Forestry Commission may be required as to whether a Felling licence is needed.

For more information on Felling Licences, please speak to the Woodland Officer at the Forestry Commission on 01296 696543

Further Information can be found on the Forestry Commission Website:
www.forestry.gov.uk
