COMMENTS:

We strongly object to this development for lots of reasons. The infrastructure around Grazeley Road is extremely poor, the volumes of traffic trying to get in and out have increased significantly over the past few years.

The pressure added on our services like Doctors & Dentists have increased dramatically! Can take weeks and months to see a specialist now.

The environment will be severely impacted by this development, we have lost so much wildlife and nature over the past 5 years due to the volume of housing and this would impact it further.
