COMMENTS:

I strongly object to this application:

- For many years now it has been understood by all and in fact become Government policy, not to establish 100% Social Housing developments that create socioeconomic segregation and neighborhood stigma - such developments have failed spectacularly in the past.

The original 40% social housing mix proposed would create much better local community interaction and I see no viable reason as to why it should be suddenly changed at this late stage?

The original proposal was reviewed and debated for nearly a year - if this was the intention it should have been within the original proposal, so that it could be fairly reviewed and debated, rather than this underhanded late submission with minimal notification to the local population.

Perhaps the Developer and WBC Planning Team would now also like to reconsider the totally unacceptable & unsafe access arrangements to the site and change that to the more sensible and acceptable option of using the Toutley Road access point?
