COMMENTS:

So after decades of assimilation of social and private housing in Wokingham to avoid ghettos, you are proposing that we have a brand new and shiny Norries Avenue. This is appalling and most importantly, absolutely against the local town plan recommendations!

ie

affordable housing should be for "part" of a development and should create "mixed and balanced communities". 100% affordable housing doesn't comply with that.

And we all know what affordable means.....

We are a quiet, peaceful, older demographic in Emmbrook and you're already ruining it with the access for this new development - this is an horrendous proposal and does not comply with the local town plan!
