COMMENTS:
I am writing to object to this planning application. This area and actually the whole of Wokingham Borough is gradually being developed to an unsustainable degree.
All local facilities are beginning to suffer; Roads, schools, hospitals and Doctor's surgeries are all overwhelmed, to name but a few.
It is vital to the wellbeing of local people and wildlife that there remain fields, trees and open spaces. These spaces create an area of calm to ease troubled minds, providing sanctuary for people and wildlife.

Thinking that this is only a development of two houses is naive when looked at as part of a rapidly increasing demand to build more. This is happening throughout the Wokingham Borough and in Hampshire just across the river Blackwater.
I believe we must leave some areas which are not developed to meet the need of all. small stretches of countryside for contemplation and calm for people and wildlife.
In conclusion this is inappropriate development in a countryside location and should be rejected.
