COMMENTS:

The Mid and West Berkshire Local Access Forum will submit full comments with regard to this application in due course, as the deadline for public comments on the Hall Farm Application falls outside our normal meeting dates. In addition, we note that Nick Irvine (WBC) has stated that this is an arbitrary date, and he encourages consideration against the emerging policies in the Local Plan. A short delay will allow for more considered comments from the LAF.

There is a further PA called Gleesons/Newlands Farm, with a later deadline so we do not need to reference this now (though the file is currently missing from the website so I cannot double check the deadline). I hope to provide info for discussion on this too in time for our meeting.
