COMMENTS:

I object to this new development due to the fact that this is on green belt land and it will destroy and affect all the wildlife in that area, and increase the flood risk which is already high around here. The impact of increased pollution due to increased traffic on an already busy area. The affect this will have on people with lung conditions. Go and find some brown belt land to build it on. Stop destroying all the green belt. We are running out of green spaces and increasing the global warming and destroying this earth
