COMMENTS:

I should like to object to the application to turn 515 Reading Road into a children's' home. We are next door at 513. We are suffering from reduced privacy due to the changes already made to the property. If it does become a children's home, we would suffer from greater traffic disruption at all hours. The application claims staff would only need the one current parking space - I find that hard to believe. And the applicant has shown little regard to the planning process, at first claiming there needed to be no application made for a change of use from a residential home and cracking on with changes to the property despite not yet getting the go-ahead. Further, has it been proven that this facility is needed in our borough? Would children with additional needs not be better served with more support at their current residences?

Yours

Neil Chandler
