COMMENTS:

A large development such as this is totally out of keeping with the culture of our rural village. We already have too much traffic travelling through the village to Twyford station. The current parking facilities at the station cannot cope with the present population of commuters. Station parking is full by 7:15am. No doubt one of the selling points by the developers shall be the great commuter links. Our small country roads will not cope with the influx of traffic this will bring. People live in Hurst for the rural nature, we do not want this to change.
