COMMENTS:

I strongly object to the proposed planning as the entrance to this site is already a choke point in the narrow road with severe flooding issues across the property already due to bad drainage with the drainage ditches not maintained or blocked off further along the road which will have a direct impact on my property as it's at the lowest point along Heath Ride and we already have flooding issues from the blocked off ditches, when we first moved here 36 years ago all the ditches were open and maintained but over the years they have been filled in completely or not maintained at all so the water runs along the road and into our property, also concerns about the additional traffic during the build and after
