Comments On Proposal

The proposal will increase the numbers of habitable rooms from 5 to 9. The existing driveway will be retained for parking.

According to the WBC Car Parking Standards, the development of such scale in Urban location will require three parking within the red line boundary. Each parking space shall have minimum dimensions of 5.0m x 2.5m.

The 18.7m long driveway will have sufficient spaces for three car parking spaces with appropriate dimensions by utilising the existing dropped crossing, which is acceptable.

No negative impacts on abilities for cycle storage are expected, which is acceptable.
