COMMENTS:

My wife is a regular volunteer at the current location in Reading, and this proposed location is very advantageous for a number of reasons: - It is much closer to our house so will significantly reduce her driving time and the associated emissions/congestion.

- We attend the church behind this building so this will reduce the need for extra trips.
 - It appears to have been well planned with little being visible to the road.
 - We have two young children and this will be a much safer site.
- Overall, it seems a very well thought out plan - I fully support this.
