Steve and Dan Wood
Wood's Tree Consultancy Ltd.

Dear Steve and Dan Wood,

REGULATION 14(2) NOTIFICATION
TREE PRESERVATION ORDER: 1185/2007
APPLICATION NUMBER: 252325
LOCATION: 39 PINE DRIVE, FINCHAMPSTEAD, WOKINGHAM, BERKS, RG40 3LD

This letter is in response to your valid regulation 14(2) notification which was received on the 25 September 2025 validated on 26 September 2025, regarding the works listed below.

I can confirm that under Section 14(1)(c) of the Town and Country Planning (Tree Preservation) (England) Regulations 2012, you can undertake the following works listed below, because the tree(s) are considered to be in the category of 'dead and / or dangerous'.

Photographic evidence was submitted to the Council confirming works are required to make the area safe. The Council deems it necessary to not object to the works listed below, at this time.

Proposed works to Group 5 of TPO 1185/2007:
T2, Scots pine
- remove dead tree

Reasons stated for works:
Health and safety issues.
The tree is no longer viable for retention and poses a risk to surrounding structures and safety of persons entering the property. The tree has died within four years of previously being in good health.

Replacement planting:
The owner has a duty under Section 201(b) of the Town & Country Planning Act to replant another tree of an appropriate size and species in the same place as soon as they reasonable can. This replacement tree(s) will be covered by the existing Tree Preservation Order and

subject to the same requirements for a tree works application if you intend to carry out works upon it in the future.

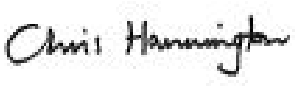

- Following the removal of the tree as authorised by this notification response, a minimum of 1 no. of Scots pine (*Pinus sylvestris)* of "standard" or "selected" size (2.5 – 3.5 metres tall) at time of planting, to be planted as close as reasonable practicable to the original tree, during the planting season (Nov – March) following or at the time of the felling of the tree, whichever is soonest.
- Planting should be carried out in accordance with clause 10 (Planting) of BS 8545:2014 'Trees: from nursery to independence in the landscape – Recommendations'.
- Should the replacement tree be removed, die, or become severely damage or seriously diseased, it shall be replaced by a tree of a similar size and species to that originally planted. Modifications to the requirements of this condition must be agreed in writing with Wokingham Borough Council Tree and Landscape Team.
- Please let the Council know when the replanting has been carried out so that the Tree Officer may come and inspect the tree(s).
- PLEASE NOTE: The requirement to replant is the responsibility of the tree owner even if the application was submitted by another person.

Informative:
A standard tree works application will be required for any works which are not covered by this exemption. Tree works applications can be submitted using the online application form through the Planning, using the link: https://www.planningportal.co.uk/ - you need to click on 'planning applications' on left hand side of the screen.

You are advised that this letter is in respect of the **Tree Preservation Order only** and it does not imply that consent would be forthcoming from the owner of the tree(s) or any such other persons from whom consent would be required.

If we can be of any further assistance, please contact the Tree and Landscape Officer via development.control@wokingham.gov.uk

Yours sincerely

Chris Hannington
Trees and Landscape Team Manager

Public: Information that can be seen and used by everyone inside and outside the Council.

Please note that your attention is drawn to the following information:

Bird Nesting Season and Presence of Bat Roosts

In accordance with the Wildlife and Countryside Act (1981) and Countryside Rights of Way Act (2000), consideration must be given to the timing and type of tree work operations, to avoid causing disturbance to any nesting birds or bat roosts that may be present within the tree(s).

The Act makes it an offence (subject to exceptions) to intentionally kill, injure, or take, possess, or trade in any wild animal listed, and prohibits interference with places used for shelter or protection, or intentionally disturbing animals occupying such places.

It is advised that all non-urgent major tree work and hedge cutting operations are undertaken at a time to avoid disturbing nesting birds during the breeding season (to which the bird nesting season is considered to be from March to July). Where bats are suspected to be present, it is recommended that advice first be sought from a licenced bat specialist and if appropriate, the relevant licence(s) be obtained before any major tree work or hedge cutting commences.

Forestry Act 1967 and Felling Licences

If it proposed to fell a tree or trees greater than 5 cubic metres or sell more than 2 cubic metres of timber in any calendar quarter, a Felling Licence from the Forestry Authority may be required.

Please note that Felling Licences are not required to remove trees from domestic (residential) gardens. Where you are the landowner of large pieces of land with numerous trees, clarification from the Forestry Commission may be required as to whether a Felling licence is needed.

For more information on Felling Licences, please speak to the Woodland Officer at the Forestry Commission on 01296 696543

Further Information can be found on the Forestry Commission Website:
