COMMENTS:
We all know the goverment want more houses built, but surely wokingham have got enough now including arborfield and finchampstead included. Our road,s are gridlocked , we dont have enough school places and doctor surgeries as it is . the town is under somuch pressure . Then there is the wild life here in blagrove lane, Tell me what happens to them ie badgers, deer and many bird life, you tell us they should now all be protected and encourage them. this small piece of green land needs to be protected we have very little here around us now . so please protect not destroy.
One last point our roads cannot take any more traffic , we have aleast 2 cars per house hold , even four if children are driving. and none of this is concidered when building house,s. Parking on new houseing
estates is discusting , and it causes danger to child and adults a like. You tell us we need open spaces for mental health reasons so leave us some.
