COMMENTS:

To Whom It May Concern,

I am writing to strongly object to the proposed temporary extension of working hours for construction and demolition activities to 0800hrs-2300hrs, Monday to Friday. This is an unacceptable and unreasonable request that disregards the well-being of the residents in our community.

Since this development was granted planning permission, the neighbourhood has endured significant emotional, physical, and mental distress due to the relentless disruption caused by construction activities. Extending the working hours into late evenings will only exacerbate this suffering.

It is deeply troubling that the developer has shown no humane consideration for the impact this ongoing disruption has on families, particularly children. Extending the noise, dust, and chaos until 11 PM will severely affect their ability to rest, study, and feel safe in their own homes. The trauma of living through prolonged demolition and construction activities late into the night is not something any child or adult should have to endure.

Residents have a right to peaceful evenings, free from the incessant noise and commotion of heavy machinery and construction crews. This proposed extension demonstrates a blatant disregard for the community's quality of life and undermines the basic human need for rest and recovery after a long day.

I urge the planning authority to reject this application and insist that the developer adheres to the original, already disruptive, working hours. The rights and well-being of the residents in this neighbourhood must take precedence over the developer's convenience.

Thank you for your attention to this matter.
