COMMENTS:

When the owner last applied & was refused he also requested to fell living trees outside his fence line in Roman Ride. These trees are directly opposite the entrances to Little Heath. Could it be stipulated that he does not fell trees & foliage outside his perimeter?

I understand that this application covers a 5 year plan & that under Section 9 monitoring over this period ' the responsibility of assessment is that of the Owner' Does this give the owner Carte Blanche or will he have to seek further approval from the Council? Personally I enjoy the occasional free movement of animals within the tree line as with all forms of nature. One of the great benefits of living in this abode.
