1.0 INTRODUCTION

- 1.1 Highway Planning Ltd has been appointed by Palatine Homes to provide highway advice in respect of the redevelopment of the Victoria Nurseries site, Victoria Road, Wargrave.
- 1.2 This report has been prepared in support of the development proposals described herein. It should not be reproduced in whole or in part, or relied upon by third parties, without the express written authority of Highway Planning Ltd.

2.0 SITE LOCATION AND PROPOSED DEVELOPMENT

- 2.1 The site is located on the north side of Victoria Road and approximately 30m to the west of the junction of Victoria Road and Recreation Road. The site comprises a garden nursery site with a wide open frontage to Victoria Road. The site frontage is adjacent to a convenience store.
- 2.2 Victoria Road is a residential access road that serves an established residential area on the east side of the village centre. It is subject to a 30mph speed limit. An automatic traffic counter was installed close to the site frontage between 19th and 25th June 2024. The counter recorded a 2-way 5 day average traffic flow of 1590 vehicles per day. The results of the traffic counter are included at **Appendix 1**.

- 2.3 The site is located close to local facilities. The following table demonstrates the walking distances to these facilities.

Destination	Walk distance
Convenience store	Adjacent to the site
Doctors surgery	250m
Pharmacy	250m
Robert Piggot Junior School	640m
High Street	840m
Wargrave station	1450m

- 2.4 The CIHT's document "*Guidelines for Providing Journeys on Foot*" recommends the following walking distances.

	Town Centres (m)	Commuting/ School (m)	Elsewhere (m)
Desirable	200	500	400
Acceptable	400	1000	800
Preferred maximum	800	2000	1200

- 2.5 The above tables illustrate how the site is very accessible by walking (& cycling) to a wide range of local facilities and public transport.
- 2.6 The proposed development comprises the redevelopment of the existing nursery site to provide 8 dwellings (1 x 1 bed flat, 7 x 3 bed houses) with a new access road junction onto Victoria Road.

3.0 HIGHWAY AND TRANSPORTATION CONSIDERATIONS

- 3.1 The highway considerations for the proposed development relate to the following:

-
- Access arrangements
 - Site specific issues

3.2 These issues will be considered in detail below.

Access arrangements

3.3 The existing access to the nursery use comprises the full width of the site frontage – approximately 20m. There is no definition for entry by vehicles or pedestrians. Generally, the eastern section of the frontage has been used for vehicles to pull in off Victoria Road.

3.4 The proposed site plan shows the creation of a formal bellmouth access road junction to serve the majority of the development. The western section of the frontage will be used to create a footway with a single crossover access to serve plot 1.

3.5 The bellmouth will be formed with 6m kerb radii and a 5.0m wide carriageway. The footway across the remaining frontage will be 2.0m wide. The creation of a formal access junction enables the provision of suitable visibility splays that relate to the speed of vehicles passing the site. The proposed site plan shows the provision of a visibility splays of 2.4m x 43m to the east. This complies with the requirements for a 30mph speed limit. The visibility splay to the west is shown as 2.4m x 36m. This splay passes to the front of the lamp post that is located to the immediate west of the site boundary and is located on the highway. As such, the visibility splay will be provided within the extent of the site frontage and the highway. The splay does not cross or require third party land.

3.6 The traffic counter that was installed in Victoria Road in June 2024 recorded the speeds of vehicles passing the site. The 85thile speed of eastbound vehicles was 26.6mph and this equates to a visibility

distance of 36.2m in compliance with paragraph 10.1.5 of Manual for Streets 2. The splay has been extended into the main carriageway by 900mm which follows the advice of paragraph 10.5.3 of Manual for Streets 2. As such, the proposed visibility splays comply wholly with the standards set out in current guidance.

Site Specific Issues

- 3.7 The proposed site layout shows the provision of 2 car parking spaces per house and 1 parking space for the flat (flat-over-garage). There is also the provision of one visitor parking space in a layby to the rear of plot 1.
- 3.8 Included in **Appendix 2** is a copy of the Wokingham Parking Calculation Spreadsheet for this development. The spreadsheet calculates that there should be a provision of 1.8, say 2, unallocated, or “visitor” spaces for the proposed development. As such, the parking provision has a shortfall of one space. The existing nursery use has no formal parking facilities and has resulted in on-street parking. There are no parking restrictions in the vicinity of the site and the Victoria Road carriageway is wide enough to accommodate parking on both sides. As such, if the proposed development results in a shortfall of one visitor space this can be accommodated on Victoria Road in the same manner as the existing nursery use.
- 3.9 The site layout includes 3 further parking spaces in the undercroft under plot 8. These are replacement parking for the convenience shop (staff/owners) and the flat that is situated above the shop.
- 3.10 The layout of the site provides a safe pedestrian route in from Victoria Road with the northern part of the development (plots 4 to 7) acting as a shared surface. The parking spaces at the front of each plot will have adequate manoeuvring space to be able to reverse and turn without

multi-point turns. The carriageway to the front of plots 2, 3 & 8 has been designed as a turning area for a fire appliance and 7.5 tonne delivery vehicle. The swept paths for these vehicles are shown on drawing 24.42 – 001.

- 3.11 A bin collection point will be provided to the south of plot 8. On collection day the Council's refuse vehicle will be able to reverse a short distance (circa 12m) into the site and then be within the recommended maximum 25m pull distance from the bin collection point. Paragraph 6.8.8 of Manual for Streets advises that refuse vehicles should not be required to reverse more than 12m – the proposed layout complies with this advice.
- 3.12 In terms of traffic generation, it is not possible to obtain an accurate and reliable traffic generation figure for the nursery. On these occasions the standard approach is to refer to generation rates for land uses within the TRICS database. The database does not contain generation rates for small nurseries. The traffic generation for the proposed residential development is straight forward to assess with dwellings in this location typically generating between 6 and 8 traffic movements per day. This equates to a gross traffic generation of between 48 and 64 traffic movements for a 12 hour day. Clearly, the nursery will have generated a volume of traffic activity and this would be deducted from the gross figures above to determine the nett traffic impact of the development. As such, the traffic impact of the development will be **less than** 48 to 64 traffic movements per day. Paragraph 115 of the NPPF states,

“Development should only be prevented or refused on highways grounds if there would be an unacceptable impact on highway safety, or the residual cumulative impacts on the road network would be severe.”

-
- 3.13 The nett traffic activity of the development will not result in a severe impact.

4.0 CONCLUSIONS

- 4.1 The site is in an accessible location with a range of local facilities and public transport within recognised walking distance limits.
- 4.2 The proposed access arrangements will be an improvement over the existing informal access. The proposed access will accommodate the pedestrian and vehicular movements that the development will generate. The proposed visibility splays comply with the relevant standards for the speeds of vehicles past the site.
- 4.3 The proposed site layout complies with the Council's requirements for car parking provision and manoeuvring. Suitable arrangements will be made for deliveries and refuse collection.
- 4.4 Overall, there are no highway related reasons why the development should not receive planning permission.

Classification Schemes

Scheme F Classification Scheme (Non-metric)

Scheme F is an attempt to implement the FWHA's visual classification scheme as an axle-based classification scheme. This is one of several interpretations.

Class	Vehicle Type	No. of Axles	Axle spacing in feet			
			Axle 1 to 2	Axle 2 to 3	Axle 3 to 4	Axle 4 to 5
1	motorcycle	2	<6.0			
2	passenger car	2	6.0 - 10.0			
	car + 1 axle trailer	3	<10.0	10.0 - 18.0		
	car + 2 axle trailer	4	<10.0		<3.5	
3	pickup	2	10.0 - 15.0			
	pickup + 1 axle trailer	3	10.0 - 15.0	10.0 - 18.0		
	pickup + 2 axle trailer	4	10.0 - 15.0		<3.5	
	pickup + 3 axle trailer	5	9.9 - 15.0			<3.5
4	Traditional bus/coach	2	>20.0			
	Traditional bus/coach	3	>19.0			
5	single unit truck/bus - dual rear axle	2	14.9 - 20.0			<3.5
6	3 axle truck	3		<18.0		
7	4 axle truck	4				
8	2S1	3		>18.0		
	2S2	4		>5.0	>3.5	
	3S1	4		<5.0	>10.0	
9	3S2	5		<6.1		3.5 - 8.0
	5 axle combination	5				
10	6 axle combination	6			3.5 - 5.0	
	3S3	6				
11	2S1-2	5		>6.0		
12	3S1-2	6				
13	truck	7 or more
