COMMENTS:

I have huge concerns over the lack of parking that will be available to the centre, cars will end up being parked along Reading Road and the car parks being unavailable to customers of the retail stores when in use . I feel the local roads also near this proposed development will end up being used for parking as well. I have seen this happen in an area I grew up in and it was one of reasons I moved away. The Reading Road is already busy enough. The current infrastructure does not support this site.
