COMMENTS:

A primary school is well needed in this area, and the plan has always been to put a school in this location, but further consideration is needed:

1. The proposed drop-off area is not sufficient for 200+ children. School entrance markings should be added to Fullbrook Avenue

2. Is there any consideration into widening and improving the current one-way roads Ryeish Lane and Hyde End Lane? These roads are already dangerous in poor flooding or icy conditions. There is no footpath along Ryeish Lane.

3. As residents we now receive information that we now live within the AWE DEPZ. Has this been considered as part of the new plans for the school?
