COMMENTS:

RPC has considered 250057 and is happy to leave the matter with WBC Officers, but RPC would like them to ensure the proposed 1.5m railing/wall/electric gate

- (i) does not encourage event advertising or climbing intruder access (2ft from windows/doors)
- (ii) construction does not damage adjacent trees with TPOs
- (iii) its colour and 'no entry signs' are in keeping with a conservation area
- (iv) there is a mechanism to stop cars exiting from the site entrance as A4130/other property traffic flows adjacent to the site can be complex and heavy.
