COMMENTS:

Same comments as previously. Trying to focus on the community facilities and SANG in order to build houses is absurd. The areas does not need more homes and the local infrastructure cannot support it. There are surplus primary school places in Wokingham with declining birth rates - so a primary school is a preposterous idea. There is a an undersubscribed secondary school with buildings mothballed. All the previous issues still remain - AWE evacuation zone being significant, water, traffic that is already unsafe and there is also the wildlife ecosystem that would be destroyed by taking their habitat.
