COMMENTS:

The amendments to this application in no way address the very strong concerns already expressed by a large number of residents of Hurst and the Parish Council. The proposed application continues to be for a suburban-style development, with no effort to conform to local design policies or the nature of the surroundings. This complete absence of care is shameful - the Council must insist that any buildings take note of the local context and enhance the local area.

Additionally the buildings fronting onto School Road remain much too close to the road and will have a damaging impact on this important part of the village.

My earlier comments lodged on 16/1/26 still apply.
