COMMENTS:

These plans will mean that we have to relocate all our horses. So many livery yards have been shut down due to plans like these in the area making it extremely difficult to keep horses. Local traffic will increase which means byways and bridle ways will be affected. Recently the Nirvana Spa road was closed which means cars were using byways and bridle ways as cut throughs. Please do not go ahead with these plans, you will be displacing so many people and their horses.
