

Bearwood Primary School Poplar trees overhanging Mayfield Cottage, Bearwood Road, Sindlesham RG41 5BB

Application Number: 252288

The photos on the following pages show the length of each of the 4 branches that I would like removed. I propose removing the lowest branch of each of the trees, three of which are very long (indicated on subsequent photos) and one is a curved minor branch that just needs tidying up.

I will be using a qualified arborist / tree surgeon. They have advised that the works would not affect the trees negatively as they are so large and so it is in effect a minor prune. They will tidy any other twigs around the 4 branches being removed.

The tree spread will not be altered by much, if at all, as there are many additional branches of similar length.

Harriet Swinyard

Left-hand poplar, lowest branch - proposed removal

2nd poplar from left, lowest branch - proposed removal

Third poplar from left, lowest branch - proposed removal

Right-hand poplar, lowest branch - proposed removal
