Planning Issues : (Conservation Area + Listed Building)

1) Visual impacts on Conservation Area
2) V impact on Setting of listed building
3) Highways.

Application Number: F/2000/2733
Appraisal:

1) Visual Impact on the Character of the Conservation Area

The proposal is for a new fence to the front elevation and new finials on the existing fence fronting a listed building.

The two new lengths of wrought iron fencing with finials both measuring 10.4 metres in length and by 0.6 metres in height will be fixed to the low brick walls located either side of the main entrance gate, on the northwest elevation of the Harrison Almhouses, facing London Road. These will give an overall enclosure height of 1.2 metres.

The proposed materials of wrought iron painted black will match the existing fencing located on the existing north and north east elevation, therefore no visual impact on Character of the Conservation Area.

2) Visual Impact on the Setting of the Listed Building

No adverse impact due to the fact that it will be in keeping with the historic fabric and will enhance the appearance of the Grade II* listed Harrison Almhouses. However a condition is recommended regarding the submission of further details of the fixing method to be used for the 'finials' and the 'support tie' prior to commencement of work.

3) Highways

Approval with no conditions.
