Application Number: F/2000/0678

In response to your consultation dated 6th March 2000 for the above application, the landscape comment is as follows:

The application is acceptable provided that care is taken to protect the existing trees. One oak tree at the side of the proposed development should have three limbs that are already reduced cut back to the main trunk to improve the shape of the tree before the development commences.

The applicant's attention is drawn to BS 5837:1991 *guide for trees in relation to construction.* Any excavations within the spread of the roots must be by hand: this applies particularly in the case of excavations for underground services. Existing ground levels with the root spread should not be altered.
