COMMENTS:

Area does not sustain further development due to infrastructure of roads, services, facilities/area of great nature and the impact of further housing would have a massive effect on the area becoming busier. Roads not suitable. Space on exiting onto Longwater Road dangerous/dangerous for school children walking to local school. School not big enough to take further children/no community facilities ie. Shops nearby. Speed limits on country road would be exceeded - therefore danger to public with lack of pathways and country road lighting not adequate. The concept of such planning is totally unacceptable and not wanted or required. Council should be more accepting of green land remaining and therefore not increasing further risks with flooding on boundaries that are already high risk. Council barely cope with running water from Jubilee Road end running down Longwater Road. The prospect of building in this area can only be detrimental on all fronts and thus spoiling a particularly lovely area that needs no further development and just because someone wants to spoil all for the sake of benefitting from the sale of personal land. It is so wrong and unjustified.
