COMMENTS:

The plans for the future of The Horns are excellent. They reflect both the history of the pub and the future that is necessary to make the pub viable.

I have lived in Crazies Hill for 43 years and have seen landlords come and go. To place the pub in the hands of the village as a community asset will enhance the future viability of The Horns. I believe the work done thus far, resulting in the excellent planning submission, are excellent and have my and my wife's full support.
