If within a period of five years from the date of the planting of any tree that tree, or any tree planted in replacement for it, is removed, uprooted or destroyed or dies, another tree of the same species and size as that originally planted shall be planted at the same place, unless the local planning authority gives its written consent to any variation.

works commence. Relevant policy: Core Strategy policy CP3 and Managing Development Delivery Local Plan policies CC03 and TB21.

Informatives

1. The development accords with the policies contained within the adopted development plan and there are no material considerations that warrant a different decision being taken.
2. Whilst it would appear from the application that the proposed development is to be entirely within the curtilage of the application site, the granting of planning permission does not authorise you to gain access or carry out any works on, over or under your neighbour's land or property without first obtaining their consent, and does not obviate the need for compliance with the requirements of the Party Wall etc. Act 1996.
3. The applicant is reminded that there are trees on site protected by a Tree Preservation Order. It is a criminal offence to wilfully or knowingly cause damage to those trees, including their roots unless in accordance with express planning permission.
4. Please note that if the works carried out depart from the scope of this planning permission and a retrospective application under Section 73A is subsequently required, there may be CIL liability implications. The scope of any retrospective planning application will cover the chargeable development for the purposes of CIL, this will include past works that are unauthorised and any additional future works included within the planning permission. If the total floorspace of these works is over 100sqm, they will be liable to pay CIL. In such cases, no CIL exemption can be claimed, and payment will become due immediately as development for which planning permission is granted under a subsequent Section 73A or Section 177(1) application must be treated as commencing on the day any such planning permission is granted. Any demolished floorspace will not be able to be considered for offsetting if the relevant building is not on the land on the day that the permission is granted.
5. The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against all material considerations, including planning policies and any representations that may have been received and subsequently determining to grant planning permission in accordance with the presumption in favour of sustainable development as set out in the NPPF.
