COMMENTS:

I strongly object to the variation to this condition. The site is immediately next door to residential properties, some of these properties have families with young children. The noise from the construction works continuing into the night will impact on these families.

The site has construction vehicles using Gemini Road as a cut through, which has been reported to both the site manager and the planning department both have failed to stopped this. To have this going on into the middle of the night, is not fair. Vehicles are parking up along Viscount Way causing obstructions in and out of Concorde Way, Messenger Road and Gemini Road. Where is the thoughts of the residents in all of this? Surely WBC have a duty of care to the residents?
