SUBMITTED BY : Mrs Emma Irwin
DATE SUBMITTED : 13/12/2024

COMMENTS:

Extending the hours to 2300hrs on weekdays will cause excessive evening noise, disrupting residents' peace and sleep. This is particularly concerning for families with young children and the elderly, who are more sensitive to disturbances.

The increased construction activity will also lead to higher traffic and safety risks, especially during late hours with reduced visibility. This poses dangers to both residents and workers.

The proposed changes overlook the cumulative impact on the community, including increased stress and a lower quality of life. It is essential to balance development needs with residents' well-being.
