

## **Biodiversity survey and report**

### **Site address –**

**22a Devitt Close,  
Reading,  
Shinfield,  
Wokingham  
RG2 8EF**

**Proposal - Proposed two storey side extension, with new cross over proposed, with removal of the existing side garage**

## Biodiversity Checklist - Part 1 - PART 1 – Designated Sites and Priority Habitats Checklist

The following checklist identifies scenarios where development proposals may impact on Designated Sites and Priority Habitats and where survey information may reasonably be required.

|     |                                                                                                                                                                   |    |
|-----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|
| 1   | Is the application site on or within <b>50m</b> of a nationally or internationally designated site, SSSI, SAC, SPA or Ramsar site? ( <a href="#">see Note 1</a> ) | No |
| 2   | Are any of the following present on or within <b>50m</b> of the application site?                                                                                 |    |
| 2.1 | Site of Importance for Nature Conservation (SINC) ( <a href="#">see Note 1</a> )                                                                                  | No |
| 2.2 | Local Nature Reserve (LNR) ( <a href="#">see Note 1</a> )                                                                                                         | No |
| 2.2 | Native woodland including ancient semi-natural and replanted woodland                                                                                             | No |
| 2.3 | Veteran (particularly old / large) trees                                                                                                                          | No |
| 2.4 | Water courses (rivers or streams)                                                                                                                                 | No |
| 2.5 | Lakes or ponds                                                                                                                                                    | No |
| 2.6 | Wetlands or marshes                                                                                                                                               | No |
| 2.7 | Species-rich meadow / grassland                                                                                                                                   | No |
| 2.8 | Heathland/acid grassland/mire/scrub                                                                                                                               | No |

|          |                                                                                                 |    |
|----------|-------------------------------------------------------------------------------------------------|----|
| 2.9      | Hedgerows supporting mainly native species                                                      | No |
| <b>3</b> | Will the development affect or involve the removal of:                                          |    |
| 3.1      | Field hedgerows or mature tree-lines, more than 30 m long, consisting mainly of native species? | No |
| 3.2      | Parkland with mature trees?                                                                     | No |

## Biodiversity Checklist - Part 2

| Part 2 - Protected and Priority Species Checklist                                                                                                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                    |                            |                                                                                                                  |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------|------------------------------------------------------------------------------------------------------------------|
| The following checklist identifies scenarios where development proposals may impact on protected / priority species and where survey information may reasonably be required. |                                                                                                                                                                                                                                                                                                                                                                                                                                    |                            |                                                                                                                  |
| Does the development involve?:                                                                                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                    | Please tick as appropriate | If you have answered 'YES' to any question you will need to consider potential impacts to the following species: |
| 1                                                                                                                                                                            | <p><b>The conversion, modification, demolition or removal of any building (including houses, flats, hotels, schools, hospitals, churches, commercial premises and derelict buildings) which are:</b></p> <ul style="list-style-type: none"> <li>Houses / flats in a rural location or agricultural buildings (e.g. barns and outbuildings) of traditional brick or stone construction and/or with exposed wooden beams;</li> </ul> | No                         | <ul style="list-style-type: none"> <li>Bats</li> <li>Breeding birds</li> </ul>                                   |

|   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |    |                                                                                                                                            |

---

<sup>1</sup> A suitably qualified person may be a planning consultant with an environmental qualification and experience of dealing with ecological issues in development proposals.

---

## Biodiversity Checklist - details of proposal and signed declaration

This section must be completed for any checklist submitted to the planning authority with a planning application.

If only Part 1 and Part 2 of the checklist have been completed and all questions have been answered NO this declaration can be completed by the applicant or their agent.

If any questions have been answered YES this declaration must be completed by the ecologist or suitably qualified person who has completed the Ecological Statement in Part 3.
